

Mobility and Access Committee for Scotland (MACS)

Annual Report

Planning and Infrastructure

This document gives you information about the work that Mobility and Access Committee for Scotland (MACS) will do in the next year to improve planning and infrastructure.

Planning and infrastructure means how our services work in this country.

Airports

MACS will review passenger assistance at airports.

MACS will also look at the airports performance data.

There will be a working group. This group will contact airports and gather information on how they assist disabled passengers. MACS will give advice on how this can be improved.

Susan Morris will lead on this project.

This is a new area of work for MACS for 2018

Regional Transport Partnerships and Health and Social Care Integration

nestrans

MACS will work with Regional Transport Partnerships to help make travel accessible:

- Shetland Transport Partnership (ZetTrans)

- Highlands and Islands Transport Partnership (HITRANS)

- North-East of Scotland Transport Partnership (NESTRANS)

- Tayside and Central Scotland Transport Partnership (TACTRAN)

- South-East of Scotland Transport Partnership (SESTRAN)

- Strathclyde Partnership for Transport (SPT)

- South-West of Scotland Transport Partnership (Swestrans)

MACS will give advice and share knowledge.

This will be important as Health and Social Care are joining up and transport will be important for disabled people.

Heather Fiskin will lead on this.

Ongoing from 2017
